

Clarity Call Questionnaire

When scheduling a Clarity Call with me, you will be asked to answer these questions during the scheduling process. If you would like to take time offline to consider your responses, please use this sheet as a reference. Be sure to save this to your computer first if you plan to type in your answers, as just saving it directly before downloading may not save your responses.

Tell me about your business (type of business, how you help people, what you are most proud of):

What makes your business (what you do or how) different from other practitioners or similar businesses?

If you had more time, what would you be thrilled to teach your current and new potential clients?

What 3 big benefits would passive income from an online offering have for your business and personal life?
